Coaching & Professional Development

Years of experience using research- and evidenced-based practices make Dr. Shipman the premier choice for coaching and professional development. Her goal is the development of the vision you have for your school, team or individual teachers, helping you overcome challenges to make solution-focused changes. She uses the Implementation Science framework (<http://nirn.fpg.unc.edu/>) and Virtual Coaching methods for immediate feedback and a powerful intervention. Well versed in change-theory in education, Dr. Shipman guides institutions and individuals toward becoming their very best.

Global Competence

Globalization has changed the demands of education, and Dr. Shipman trains teachers to meet the challenge of developing globally competent schools. Using her own 4-step method and simple Work-Across technique, Dr. Shipman shows teachers how to transform their lessons into global-ready curricula. Training in:

- *International student relations*
- *Globalization research*
- *Globalization training for individuals and institutions*

Special Services

Dr. Shipman has taught internationally and across the age-span in Special Education, ESL and trauma counseling, using systems orientation. She has experience supervising and training in:

- *Special Education*
- *School Counseling*
- *ESL instruction*
- *Developing Student Support Services*
